

Philip Steele

City of Light. The Last Days of Jim Morrison

His life as a great rock poet and charismatic singer of the Doors is unforgettable, but little is known about Jim Morrison's last days in Paris in 1971. Philip Steele, himself a successful musician and composer, met Jim Morrison shortly before the latter's death in the "city of light". In this moving novel, he depicts the tragic downfall of the once so celebrated hero until his myth-surrounded death.
